

## Dear Baptist Friends,

Why does this Spring matter so much? The Australian Baptist movement is like a reservoir filled with life and love and potential in Christ. But for too long, sharing Jesus with others has been more of a trickle than a river. It's time to increase the flow.

There's enormous flow-on benefits if we remove the blockages that are keeping the life we have in Jesus from reaching others. And we can. There are many small changes that will make big differences.

That's what Crossover is here to help with and why every extra dollar invested in Crossover is well spent indeed. Faith-sharing isn't a peripheral ministry - it's central and vital. Inviting, welcoming and forming new disciples of Jesus multiplies, extends and reinvigorates all our other ministries.

Jesus didn't just say "If you're thirsty, come to me and drink," but promised that in turn "streams of living water will flow from within you." (John 7:37-38).

We're seeing the power of flows of water in Australia right now. How transformative - how refreshing and renewing - might a new flood of God's love, grace and Spirit be to our nation and beyond? Please help us open up the gates.

### Spread the word

Get your family, friends and church excited about sharing Jesus! Download our promo pack, forward this email, and/or spread the word on socials
